Projects/Work Experience

Startup Buzz Blog Website 2022
HTML, CSS, UI/UX Design startupbuzz.live

- Worked collaboratively as a two-person team, sharing equal responsibility for the design and functionality of the website. Utilized Figma to create a visually appealing and user-friendly interface, ensuring seamless integration between aesthetics and usability. Focused on enhancing user experience through intuitive design elements and interactive features.

Personal Portfolio Website 2023
HTML, CSS bhavyakapoor.me

- I single-handedly built my portfolio website in one week, dedicating late nights and utilizing my skills in HTML, CSS, and basic JavaScript to bring my vision to life. I also led the product design, focusing on creating a seamless and intuitive user experience. By applying design principles and user interface best practices, I crafted visually appealing layouts and interactive elements to enhance usability and engagement.

Eclipsify 2023
UX Design for Mobile App & Website

- In a fast-paced 36-hour NASA Hackathon, our five-member team developed a remarkable website and application. Focusing on UI/UX, I led the design efforts, creating every interface component with user-centricity in mind. Leveraging our team's diverse expertise, we embarked on a collaborative journey of creativity and synergy. From conceptualization to prototyping, I meticulously crafted the visual and interactive elements, ensuring a seamless and engaging user experience.

UI/UX Internship 2023-2024
UI/UX Intern at Chandigarh University

- I have completed various creative projects from June 2023 to April 2024 in the Chandigarh Academic Competition under the Department of Academic Affairs at Chandigarh University. My dedication and hard work have been commendable. Throughout my internship, I consistently demonstrated exceptional skills, professionalism, and a strong work ethic. My contributions to the organization have been invaluable.
